

Biodiesel Coming to Phoenix

BAKERSFIELD, Calif.--(BUSINESS WIRE)--Dec. 11, 2003--American Biofuels L.L.C. (ABF) and Green Star Products Inc., (OTC:GSPI) (35% owner of ABF) are pleased to announce their decision to locate their second continuous flow production biodiesel facility within the Greater Phoenix, Arizona area. The plant site includes a 9,000-square-foot air-conditioned building with ample office space and a railroad spur adjacent to a covered loading dock with overhead doors. The infrastructure is large enough to easily handle the processing and production of 10-million to 15-million gallons per year. ([Full Story](#))

Don't Forget Your Local Christmas Tree Drop Off!

Many of us have Christmas Trees in our living room but not too many of us know of the best way to dispose of them after the holidays. The City of Phoenix has posted a list of areas that cut Christmas Trees are going to be collected. It is much better to deliver them to a drop-off point make sure they are recycled than let them fill up our land fills. Do your part and visit <http://phoenix.gov/GARBAGE/xmastree.html> to find the nearest collection address.
